

## SUMMARY

- Seeking an exciting and dynamic opportunity in the field of computer science, where I can leverage my technical prowess to drive innovation, tackle real-world challenges, and immerse myself in cutting-edge technology. My goals to not only enhance my skills but also make a tangible impact by actively contributing to the development of revolutionary software solutions. Let's collaborate to create the future of technology together.

## EDUCATION

### Vishnu Institute of Technology

B.Tech in Information Technology  
Graduation : 2026 | CGPA : 85 %

### MPS Junior College

Intermediate in MPC Stream  
2020-2022 | CGPA : 94 %

### ZPHS School

SSC  
Graduation : 2020 | CGPA : 99 %

## SKILLS

### Programming Languages

- Python
- Java
- C
- Machine Learning

### Technologies

- HTML
- CSS
- Node.js
- SQL

## CERTIFICATIONS

- NPTEL Silver in Java
- Promotion in Internal SIH
- Machine Learning from Coincient

## PROFESSIONAL EXPERIENCE

### Google for Developers | AI & ML Intern

Google.| 2023

- Interaction with Industry Experts and ML scientists at Google.
- Gained knowledge on Basic to Advanced Machine Learning Concepts and deep learning concepts in handson sections.

## ACHIEVEMENTS AND PROJECTS

- Developed a E-commerce website HTML,CSS,Node.js,express.js as a part of Full stack course.
- Developed a Tourism website HTML,CSS,Node.js,express.js as a part of SIH Hackthon.
- Advanced fake news decetion using Machine Learning and Natural Language processing.
- Developed an calculator app which do minimal arthematic calculations.
- Developed a clone of Delivery app user interface.
